

Heat gun protection range that will last you a life time! - guaranteed

Protect your employees and company with this simple solution
(Please see below for our Heat Gun Protection range and reverse for our Heat Guns)

Hilltop heat gun protection range - As you can see the guards are a unique and robust design. They were designed, developed and manufactured to exacting standards from working closely with our customers to find a solution to their Health and Safety issues. The concern being that staff were "Burning" themselves on the heat guns that have merely been left lying around on the work tops. Research has found this to be a significant cost with insurance claims for burns, averaging in the region of £5,000 +, this is when all of the costs are taken into consideration. All Heat Guns as you can imagine, operate at very high temperatures and therefore remain hot for some considerable time after use. The range of heat protection guards were originally designed for our own guns, however they have been tested and found that they can be used with other heat guns.

[We can design and supply heat protection guards and cages to suit any form of heat gun](#)

Hilltop Small upright protection guard - The unique design of this protection guard allows you to protect your employees from burning themselves whilst the gun is in the up right operating position. The guard can be used on a wide range of heat guns.

From £34.50 each

Hilltop Medium protection guard - Due to the heaviness of the guard, its sits securely on the bench making a sturdy platform. You can place the gun in and out of the guard with ease without the unit toppling over. This guard is suitable for a wide range of heat guns.

From £36.50 each

Hilltop Large protection guard - This guard has been designed to use in both the upright and the horizontal position to the preference of the operator. This guard will accommodate the CV-1981 Mk2 along with the Leister Triac range of guns. It also comes with the optional extra 'Cradle Stand' to secure the guard in the horizontal position.

From £41.50 each for Guard
& £28.00 for Cradle Stand.

Hilltop heat gun range

Hilltop Commercial Heat Gun - 2 fan speeds, 2 heat settings with automatic shut off for safety. It is designed with two pull out wings so it can be steadily mounted on the table. Comes air vents on either side of the gun which improves the performance and prolongs the life of the gun when used in hands free position, this improves the ventilation of the gun which in turn prevents it from over heating.

From £24.99 each

Hilltop Professional Range - HL 1810 S Steinel Gun - 3 Airflow settings and Ergonomic soft handle for comfort. With its 1800 watts of power, this gun reaches a temperature of 600°C at an airflow rate of 500 l/min. The 3-stage switch can also be used to select a 50°C heat stage at 200 l/min as well as 400°C heat stage at 300 l/min. This is one of the guns available in the Steinel Professional Range.

From £52.50 each

Hilltop Professional Range - HL 2010 E Steinel Gun - This model is top of the range in terms of versatility, durability and ergonomics. An extremely high level of power, formidable airflow and quality features leave you wanting nothing. The easy-to-read LCD display integrated at the rear is always in view. This gun has a cool air stage for rapid cooling on changing nozzles, along with dual air vents and Ergonomic soft grip handle. This is one of the guns available in the Steinel Professional Range.

From £78.68 each

Hilltop heavy duty heat gun - CV-1981 Mk2 - This gun is what we call the Rolls Royce of heat guns. The gun is a perfect Hot Air hand tool for high quality work. It can be used in a variety of applications including heat shrink tubing, plastic fabrication, roof membrane welding, welding fabrics, vehicle fairing repairs and more! The Triac S is the preferred hand tool for high quality results every time. This gun is reliable, cost-effective and proven hand tool with steplessly controlled temperature range 24/7.

From £270.00 each

Protection Cage - light weight extended guard - This cage has a degree of protection but is not as robust as the Hilltop protection guards and has no life time guarantee. The extended guard is 4" in height and when placed on the heat gun it has a 2" high clearance from the actual tip of the heat gun.

From £29.50 each
