

# HILBAS—Braided Basalt Fibre Sleeve

BST-BS braided basalt fibre sleeve is made by texturised basalt fiber. Highly resistant to most oils, hydraulic fluids, fuels, acids and alkalis and moisture.

It provides excellent protection for industrial wires, cables, hoses (hydraulics), tubes and pipes, and also provides thermal insulation and personnel protection.

Technical Datasheet	
Material	Basalt
Working Temperature	-40°C - +648°C
Flammability	VW-1
Melting Point	+982°C
Standard Colour	Nature
Cutting Tool	Scissors
