## **Tracewaste Tear-off Pull Through Seals**

The Tracewaste Tear-off is an alternative model with a tear-line for easy removal of the seal, without the use of any tools.

This model is otherwise identical to our standard Tracewaste seal, featuring a large paddle for highquality thermal transfer or hot-foil printing. Available in red, yellow or green as standard.

## **Applications**

Freight containers & doors, curtain side buckles, storage bins, ID tags, sprinkler systems, tractors & trailers, toteboxes, clinical waste & cash bags, airline cargo, rollcages, document containers.
