

ITUV Shaterproof Heat Shrink

Thin walled UV stabilised Hilltop heatshrink for covering fluorescent tubes.

A transparent crosslinked polyolefin giving high levels of protection against splinters from accidental breakages.

Available sizes		
Type	Shrink ratio	Lamp type
21	21/13	T5
29	29/16	T8
38	38/19	T12

- Shrink temperature: 120°C
- UV Resistance: Grey scale 5 to ISO 4892 at 65°C, 550W/m² at 280-800nm
- Superior UV resistance to PET and PVC on side by side test
- Operating temperature – 55°C to + 135°C
- Tensile strength 27Mpa
- Non corrosive to ASTM D2671
- Longitudinal shrinkage on recovery < 10%
