

PVC Linen Loom Harness Tape – 19mm

Product Description

PVC-LINEN-L-TAPE-19.0X50M-RLS is a general purpose, uncoated cotton cloth tape with a pressure sensitive adhesive. This product is both corrosion resistant and abrasion resistant, and is highly conformable and flexible.

Applications

General purpose applications such as colour coding, packaging, masking, bundling, sealing and identification

Features & Benefits

Corrosion resistant
Abrasion resistant
Good unwinding properties
Good initial tack
Easy to tear by hand
Strong & durable
Certain colours can be supplied to DEF STAN 75-2 specification
Service temp -10 to +60°C

Technical Performance

Description	Units	Value	Test Method
Total thickness	mm	0.26	-
Adhesion to steel	N/cm	2.8	IEC 454-2
Tensile strength	N/cm	70	IEC 454-2

Declaration of Conformity Information

Certain colours can be supplied to DEF STAN 75-2 specification

REACH SVHC Status – NO SHVC present according to candidates list of 17th Dec 2014

RoHS Compliance Status – Not Applicable

Storage Details

Shelf life recommended 12 months from date of despatch at the moderate temperature and humidity environment.
