

Releasable Cable Ties

Hilltop Products' Halogen & Silicone-Free Releasable Cable Ties are made from High-quality Nylon Polyamide 6/6; designed to withstand harsh weather conditions and self-extinguish during a fire. Designed and installed with an easy to use elongated tooth mechanism which allows for unlimited uses per cable tie.

Releasable Cable Ties

Features & Benefits:

- Weather & UV-Resistant*
- Elongated tooth allowing for the ties to be re-used over and over.*
- Self-extinguishing*
- Halogen & Silicone-Free*
- Easy and simple to use*
- Uses a straight tip to increase compatibility with cables.*

Our Releasable Cable Ties

Our cable ties are also resistant to solvents and reagents, oil, petrol, and hydrocarbons when used at low temperatures, in low concentrations, and for short periods of time. They're perfect for applications in the automotive industry as well as any industry involving solvent use. The straight tip is designed to ensure our cable ties are compatible with most cable diameters and maximize the variety of cables the ties can be used on.

Ensuring Safe Wire Management

To ensure safe wire management and to keep costs and product waste to a minimum, the cable ties must fit to size and be applied correctly. That means it is necessary to purchase the correctly sized cable tie to fit your application/need. To establish the most suitable size of your cable tie application, use the chart provided.
